I Wonder

How does the little kitten feel when she is alone?

What does Mama Dog notice?

How do the puppies make room for someone new?

Try It Together

Put your hands together like little paws.

Open them slowly.

Say: "There is room for kindness."

For Parents

Children learn belonging by watching who is welcomed.

This story gently shows that family can grow through care, not only through sameness.

Let the child notice the kitten, the puppies, and the moment when loneliness becomes connection.

Let the child notice how welcome feels.
