I Wonder

What doctors do?

What conductors do?

What architects build?

Try It Together

Choose one pretend-play idea:

I can help someone gently.

I can listen for quiet sounds.

I can build something safe and strong.

For Parents

Pretend play helps children practice language, planning, memory, empathy, and imagination.

A child pretending to care, conduct, build, repair, cook, or help is practicing real thinking through play.

*You do not need to lead too much. Watch first.
Name what you see.*

Coloring

What game do you want to play today?
